Theme A: Creating an Attractive Townscape	The pedestrian area is quite nice, with seating and trees. We just need some more shops that would attract people here!
Theme B: Creating New Employment Opportunities	This is more important than more housing in my opinion (although I do appreciate that people need homes). More employment in Gosport would help the overcrowded A32. I was never able to find employment here and had jobs in Southampton and Portsmouth

Leisure Experience charges put people off (I don't have a car myself) and the reduced footfall must make things hard for businesses. A vicious circle. Theme D: Providing New Homes I don't think it's a good idea to building housing on the present car parks. If anywhere, it could go on the site if Haslar Detention Centre which is a massive brown field site that I believe is available soon. This should include affordable housing! Theme E: Improving Accessibility It's a shame the railway line was Beeching'd. Just imagine what a difference that link to the rail station in Fareham would have made. I can't think that more roads or widening roads will make much difference, as they just fill up with more traffic as soon as they are open. The E1 and E2 are excellent services but other routes were cancelled some time ago. Public transport seems to be the best way to help our access problems Theme F: Improving Public Realm and Green Infrastructure Provision parks and gardens. Theme B: Managing Flood Risk Theme H: Providing Appropriate Infrastructure Theme J: Creating a Healthier Town Encouraging walking, making cycling safer? Please leave the Falklands Gardens as they are! The bus station needs a revamp but not a block of flats. Cafes would be better, making the most of the harbour views and bringing some income in.
