## Conclusion

<b>Suitable</b>	<b>Available</b>	<b>Achievable</b>
-----------------	------------------	-------------------

Issue	Figure	Assumptions
Developable area	0.04 ha	Based on two sites in Morris Close.
Local area density	Low/Medium	
Development density	75dph	Density of developable area.
Capacity for dwellings	2	Based on initial visual assessment.

Concluding comments	Both of the sites currently accommodate privately owned garages which serve local residents. Although the site could accommodate residential development, the character of the area and the limited area available for development limits makes the sites likely unviable. The site area is unable to accommodate five dwellings and is unsuitable for inclusion in the SHLAA.
Concluding actions	<b>No further action.</b>
