Conclusion

Suitable	Available	Achievable
----------	-----------	------------

Issue	Figure	Assumptions
Developable area	0.20 ha	Based on four sites.
Local area density	Medium	50dph
Development density	45dph	Density of developable area.
Capacity for dwellings	9 over four sites.	Based on initial visual assessment.

Concluding comments	All sites have potential for some level of development. Development would need to consider local parking needs and the amenity of existing residents. The developable site area of each of the four sites was assessed as unable to accommodate 5 dwellings. As a result the site is unsuitable for inclusion in the SHLAA.
Concluding actions	No further action.
