Issue	Figure	Assumptions
Developable area	0.10 ha	Based on whole site.
Local area density	Medium	40dph
Development density	50dph	Density of developable area.
Capacity for dwellings	4	Based on initial visual assessment.

Concluding comments	Potential site although awkward layout limits the level of development achievable. Development of the site will also have to accommodate existing parking need and new parking need. Development of the site could be appropriate depending on design however the site is likely unable to accommodate 5 dwellings without causing significant harm to local amenity and hindering the public highway.
Concluding actions	No further action.
