**Cars can park up to 15 minutes free** in the drop off area. After this they must move to a car park where fees apply. #### Reduced parking fees

There are about **100 disabled parking spaces** at QA at various locations. Vehicles showing a disabled badge have to pay only £1.80 per day. In the multi-storey car park take ticket and badge to reception for authorisation (leave clock in car). In pay and display parking bays pay for 1.5 hour and leave ticket with badge in car. Patients and visitors can receive a reduced parking rate if they are

attending or visiting relatives for a time e.g. those who stay more than seven days or have treatment requiring seven or more visits. In such cases you can receive a discount and pay £1.80 per day. This is at the discretion of the ward sister or nurse in charge.

**Wheelchair Loan** For those who require them, wheelchairs are available at various locations around the hospital including main and north entrances and in the multi-story car park. The £1 charge can be reclaimed when the chair is returned.

## **Other general issues concerning travelling to hospital**

### **Non-emergency transport service for patients booked through your health professional**

This scheme is designed for non-urgent planned transportation of patients with a medical need for transport. It will undertake journeys for planned outpatient appointments, discharge from hospital, renal services and planned hospital admissions. The service is booked by your health professional.

### **Refunding of travel costs**

If a cancer patient is in receipt of selected benefits travel costs may be refundable. For more information, contact Macmillan on 08088 080000.

### **Mobility scooters on First Bus**

First Bus have given us the following statement about Mobility Scooters on their buses

It is correct that only some mobility scooters are permitted on our vehicles. The reason for this is that we need to ensure that the combined weight of the scooter and the individual using it does not exceed the maximum weight limit of the vehicle ramp, which ensures the customer can board and alight safely. We also need to ensure that the scooter can safely be manoeuvred into the wheelchair space and does not encroach into the aisle of the bus so that in the event of an emergency, customers exiting the vehicle are not impeded in any way.

In terms of the assessments, these take place at our local depots in Fareham or Portsmouth where we can define the weight and if within limit, let the customer see if we can fit the scooter into the space as described above. (**GOPF: Note** that the assessment and scooter registration is compulsory). If confirmed that the scooter meets the criteria, then a letter will be issued to the customer which they then show to the driver so that he/she knows that the scooter is safe to board the vehicle. If a customer has more than one scooter they use, then each will have to be assessed individually and have its own permit to travel letter.

Customers who wish to have this assessment done need to contact our customer services team who will pass their details to our assessor who will make contact to arrange the assessment. Their contact details are:
