Subject: Proposed Waterfront development

Good afternoon

I've just had a look at the proposed Waterfront development plans and all I can really say is - are you kidding me?!!! 700-900 extra houses, in a town where congestion is ridiculously high. The roads and infrastructure just won't take any more! Public transport is a joke, do you know it's more cost effective for me to get a taxi into town than it is to hop on the bus, how ridiculous is that??

I believe the extra housing will mean a demise to the town, not the regeneration you are hoping for.
