1. Do you have any comments regarding the Vision?	A good vision statement. Public pride is a key issue when looking at regeneration. I still sometimes feel that I have to apologise for living in Gosport. Those who have never visited have a very poor image.
2. Do you have any comments regarding the strengths of the Waterfront and Town Centre area identified in the SPD? (eg. agree, disagree, any additional ones?)	I agree with all of the points raised although I do avoid the ferry area in the evenings - there are so many dark corners between the buildings.
3. Do you have any comments regarding the weaknesses of the Waterfront and Town Centre area identified in the SPD? (eg. agree, disagree, any additional ones?)	Agree with all the points raised.
4. Do you have any comments regarding the opportunities of the Waterfront and Town Centre area identified in the SPD? (eg. agree, disagree, any additional ones?)	Agree with all. I especially like the mention of improved access to the shore line. I regularly walk to the town from Elson and parts of the route are not very interesting or attractive.
5. Do you have any comments regarding the challenges of the Waterfront and Town Centre area identified in the SPD? (eg. agree, disagree, any additional ones?)	Perception of congestion is an interesting point. Blockages in Fareham are often worse than those in Gosport. All towns have traffic issues at peak times - Chichester.....Salisbury..... almost any point between Fareham and Southampton on the A27.....
Theme A: Creating an Attractive Townscape	Respect for Heritage and Conservation Issues is important so that we do not lose more of our local treasures.
Theme B: Creating New Employment Opportunities	Agree with all.
Theme C: Enhancing the Shopping and Leisure Experience	A grocery store at Clarence Yard is urgently needed for visiting boaters. The High Street appears to be a long way to go to top up on supplies - an opinion given to me by people on a visitors mooring. Agree with other points.
Theme D: Providing New Homes	Please maintain public access to the waterfront whenever possible.
Theme E: Improving Accessibility	Re: Bus Station '... attractive and safe pace to wait...' yes please! As a regular bus user I really do not like the bus station after dark. I rarely use my car as the bus service is so good - I am not old enough to qualify for a bus pass!! really like all the plans for walkers.
Theme F: Improving Public Realm and Green Infrastructure Provision	New circular walking routes sound good. I am glad the Falkland Gardens are not to be altered. Of course we do need the toilets to be reopened....
Theme G: Managing Flood Risk	Agree with all
Theme H: Providing Appropriate Infrastructure	Agree with all
Theme J: Creating a Healthier Town	I regularly walk in to town and links between open spaces would be great. A safe environment is vital. I have a bike but have yet to leave it unattended in the town centre and therefore I do not use my bike to go shopping.
The Bus Station and Falkland Gardens	The bus station is horrible - dark and dingy, it does not feel safe - or clean. Gardens are great, no changes at all needed. Toilets are essential.
Gosport Waterfront North of Mumby Road	It would be great to have walkers access away from the busy road.
Royal Clarence Yard and the Retained Area	It is a great shame that the 'pub' was allowed to use all of the raised walkway for seating. Did they have to apply for permission for this?
North of the High Street	Nothing to add to this.

The High Street and associated areas	Car parking needs to be free or very low cost in order to encourage car users to visit the town.
South Street	Beware of taking away too many parking spaces. If the car park looks full people will drive on - and perhaps go to Fareham instead the next time.
Trinity Green area	Nothing to add
Haslar Marina	Nothing to add
The Gosport Lines	Good news. We have such a lot of interesting sites it will be great to have access for walkers. A dog free zone in Arden Park would be welcome. There are far too many out of control dogs in Gosport. (which is why I no longer use the Alver Valley park)
8. Is there anything in the SPD that particularly concerns you and why?	No
9. Are there any other sites within the Waterfront and Town Centre area which have potential for development?	
10. Please can you give any suggestions of what else the Council should consider to include in the final version of the SPD?	
11. Please include any comments you may have	Updating of the bus station and associated buildings should be a priority.
12. Please could you complete your contact details	Susan Sawyer
